## Education

### Bharati Vidyapeeth (Deemed To Be University)

*B.Tech in Computer Science and Engineering*

**Aug 2024 – Present**

*Navi Mumbai, Maharashtra*

### New Horizon Public School

*Senior Secondary (XII)*

**July 2022 – Aug 2024**

*Navi Mumbai, Maharashtra*

## Relevant CourseWork

- Linear Data Structures
- Non Linear Data Structures

- Database Management System
- Web Programming

- Software Engineering
- Object Oriented Methodology

## Technical Skills

**Languages:** Golang, JavaScript, Python, Rust, SQL, HTML, CSS, TypeScript, Java, C

**Frameworks/Libraries:** React, Next.js, Tailwind, Node.js, Vite

**Databases:** MongoDB, PostgreSQL, Redis, SQLite

**Tools/Platforms:** Docker, GitHub, Kali Linux, Linux, NixOS

**Version Control:** Git, GitHub

**Design & Modeling:** Figma, Blender, Canva

## Languages

**English:** Proficient

**Hindi:** Native

## Experience

### Infraware

*Software Intern*

**September 2025 – November 2025**

*Dubai, UAE*

- Overhauled company website, improving load time by 60% and SEO and GEO via server-side rendering.
- Built the core foundation by rewriting internal tools from Python to Rust for next-gen products.

### GFG Club

*Web Co-Head*

**January 2025 – July 2025**

*Navi Mumbai, Maharashtra*

- Developed and maintained the club website
- Learned how to implement Supabase and also optimize Image Serving

## Projects

### JHR | Java, Java Hot Loader

**June 2025**

- Developed a small hot reloader primarily targeting game development.
- Improved debugging with inbuilt error/log window and developer speed.
- GitHub: [github.com/JasnRathore/jhr](https://github.com/JasnRathore/jhr)

### JPM | Go, Turso, Windows Package Manager

**June 2025**

- Developing a simple package manager for windows for ease of installation of my personal tools and some others.
- Made me learn how to write a parser for custom installation instructions that the system has to use.
- GitHub: [github.com/JasnRathore/jpm](https://github.com/JasnRathore/jpm)

### Arlo | Go, Vite, FullStack Web Framework

**June 2025**

- Developed a lightweight framework for building fullstack web apps using vite in frontend and backend, into a single binary.
- It enables developers to create performant web applications with familiar web tools and go tools.
- GitHub: [github.com/JasnRathore/arlo](https://github.com/JasnRathore/arlo)

### Glide | Go, HTML/CSS/JavaScript, Desktop Framework, vite

**May 2025**

- Developed a lightweight framework for building cross-platform desktop apps using web technologies (HTML/CSS/JS) with a Go backend.
- Currently supports Windows, enabling developers to create performant desktop applications with familiar web tools.
- GitHub: [github.com/JasnRathore/glide](https://github.com/JasnRathore/glide)

**Geek For Geeks Club Site** | *Next.js, Supabase, React***Jan 2025 – Feb 2025**

- Built a responsive website to showcase events, team information, and memories for a university club.
- Integrated Supabase for backend functionality and optimized performance with Next.js server-side rendering.
- Live Demo: [gfgbvdoet.vercel.app](https://gfgbvdoet.vercel.app)

**Project Aliaser** | *Golang, CLI, SQLite***Feb 2025**

- Developed a CLI tool to simplify folder navigation by creating aliases for frequently accessed directories.
- Reduced repetitive terminal commands, improving workflow efficiency for developers and power users.
- GitHub: [github.com/JasnRathore/project-aliaser](https://github.com/JasnRathore/project-aliaser)

**JCommand Chain** | *Go, CLI***May 2024**

- Created a CLI utility to alias commands/scripts or execute multiple commands concurrently.
- Enhanced productivity by automating repetitive terminal workflows with customizable command chains.
- GitHub: [github.com/JasnRathore/JCommandChain](https://github.com/JasnRathore/JCommandChain)

**Jyntaxe** | *Tauri, React, Rust, Tailwind CSS***Apr 2024**

- Designed a minimalist fullscreen code editor with a focus on distraction-free coding.
- Leveraged Tauri for a lightweight cross-platform build and Rust for performance-critical components.
- GitHub: [github.com/JasnRathore/jyntaxe](https://github.com/JasnRathore/jyntaxe)

**BUISQL** | *Python, MySQL, GUI, Rust***Jan 2024 – Mar 2024**

- Built a GUI application to view and interact with MySQL databases without using the command line.
- Simplified database management for non-technical users through an intuitive graphical interface.
- GitHub: [github.com/JasnRathore/BUISQL](https://github.com/JasnRathore/BUISQL)

**Hades** | *Python, CLI, CRUD, C++, MySQL***Sep 2023 – Oct 2023**

- Developed a CLI-based CRUD application to manage prison records as part of a school project.
- Implemented file-based data persistence and a user-friendly command interface for data manipulation.
- GitHub: [github.com/JasnRathore/Hades](https://github.com/JasnRathore/Hades)
